Provider Network Management

Enhanced Network Management Application to Connect, Integrate & Manage Pre & Post Network Application

Xybion's Network Management platform enables organizations to customize their provider network to support national, regional, and custom specialty network solutions.

Evident™, a cloud-based platform for comprehensive health & safety management, provides a low-code Provider Network Management app to meet quality, compliance and operational excellence in managed care operations.

Xybion's Provider Network Management solution:

- Is a robust contracting platform
- Seamlessly integrates with medical bill review platforms, claims systems, and other provider directories.
- Manages credentialing
- Maintains a full audit trail of contract rates
- Enables contract rate negotiations based on state regulations with fee schedule and usual and customary application overlay.

Benefits of Xybion's Provider Network Management:

- Ensures data integrity throughout the organization
- Converges people and technology
- Seamless integration with multiple platforms

Key Features of Xybion's Provider Network Management:

- Access to data anytime, anywhere from any device
- Enables self-service reporting abilities
- Provides automated data maintenance
- Data monitoring from a centralized location
- Improves efficiencies, accuracies and controls
- Automated provider data collection

XYBION'S DIGITAL ACCELERATION PLATFORM: SIMPLIFY & UNIFY

An Expert Partner Powering Your Service Experience through Technology

Xybion provides interconnected solutions for global and national companies operating in regulated industries.

Our unique solutions focus on regulatory compliance, GRC, quality management, GxP, integrated preclinical lab management, early-stage drug discovery, content migration, systems validation and health & safety.

Xybion specializes in the development and delivery of flexible enterprise solutions that can be easily configured, integrated or deployed out of the box to deliver the capabilities you need.

From software solutions to consulting services to a global delivery center, Xybion is your expert partner powering innovation and efficiency.

*With our expansion into the **MANAGED CARE INDUSTRY**, Xybion is excited to provide a complete platform to all stakeholders within the managed care industry, occupational health and occupational medicine.*

Providing technology and services since 1977, Xybion brings you the technology and expertise to automate and manage your regulatory, compliance and operational processes, so you can focus on your core business.
