

Revenue Cycle Management

Reduce claim expenses and increase efficiencies through Xybion's Suite of Managed Care Applications.

Next Generation Solutions for Health & Safety

- Occupational Health & Safety
- OSHA & State Reporting
- Soft Tissue Injury Management & Medical Care
- Absence Management
- Evidence Based Medical Bill Review
- Enterprise Content Management
- Care & Case Management
- Network Management and Credentialing
- E-Occupational Health Practice Management

Your process. Your Way.

Whether you are looking for a full revenue cycle management platform or a simple to use compliant billing platform, Xybion's digital billing platform is for you. Integrated with our practice management platform or as a standalone application, our billing module streamlines workflows and doesn't require specialized billing services. Xybion's platform easily supports Workers' Comp regulations giving you certainty when billing so you know your bill is compliant and how much you will be reimbursed.

Benefits of Xybion's Revenue Cycle Management Platform

- 100% cloud-based & accessible via any device
- Embedded ICD10
- Easily integrates with third party vendors
- No software to download
- Immediately access and connect internal systems that drive billing
- Completely configurable - updates take days, not months
- Real-time access to bills in all statuses
- Embedded reporting
- Fully compliant with latest data standards and regulatory guidelines
- Established interfaces with clearinghouses
- Supports workers comp, auto, and federal guidelines
- Minimal IT costs to implement and maintain
- State fee schedule overlay
- Ability to create a test bill to fix errors that would cause a denial or rejection

XYBION'S DIGITAL ACCELERATION PLATFORM: SIMPLIFY & UNIFY

An Expert Partner Powering Your Service Experience through Technology

Xybion provides interconnected solutions for global and national companies operating in regulated industries.

Our unique solutions focus on regulatory compliance, GRC, quality management, GxP, integrated preclinical lab management, early-stage drug discovery, content migration, systems validation and health & safety.

Xybion specializes in the development and delivery of flexible enterprise solutions that can be easily configured, integrated or deployed out of the box to deliver the capabilities you need.

From software solutions to consulting services to a global delivery center, Xybion is your expert partner powering innovation and efficiency.

*With our expansion into the **MANAGED CARE INDUSTRY**, Xybion is excited to provide a complete platform to all stakeholders within the managed care industry, occupational health and occupational medicine.*

Providing technology and services since 1977, Xybion brings you the technology and expertise to auto-mate and manage your regulatory, compliance and operational processes, so you can focus on your core business.
