

# **Evidence<sup>®</sup> XD** Exigency Response Tool (ERT)

## Enabling a safe workplace through real-time reporting, tracking and monitoring employee interactions

**Evidence XD-ERT** is a mobile app that can be deployed and used right from your mobile device, tablet or desktop. It is anchored by **Evidence XD**, Xybion’s Total Employee Environment, Health and Safety (EHS) cloud application. Our total mobile app and enterprise cloud enables EHS Business leaders of all companies to easily manage clean and safe interactions through the growing COVID-19 pandemic in one simple to use application.

### COVID-19 Tracker

This is a self reporting tool. You are expected to be honest and transparent for the safety of your peers and our patients. If you are found to have been dishonest in your evaluation, you will be subject to corrective action.

First Name  Last Name

Department

Phone

Have you experienced any of the following symptoms? (Select all that apply)

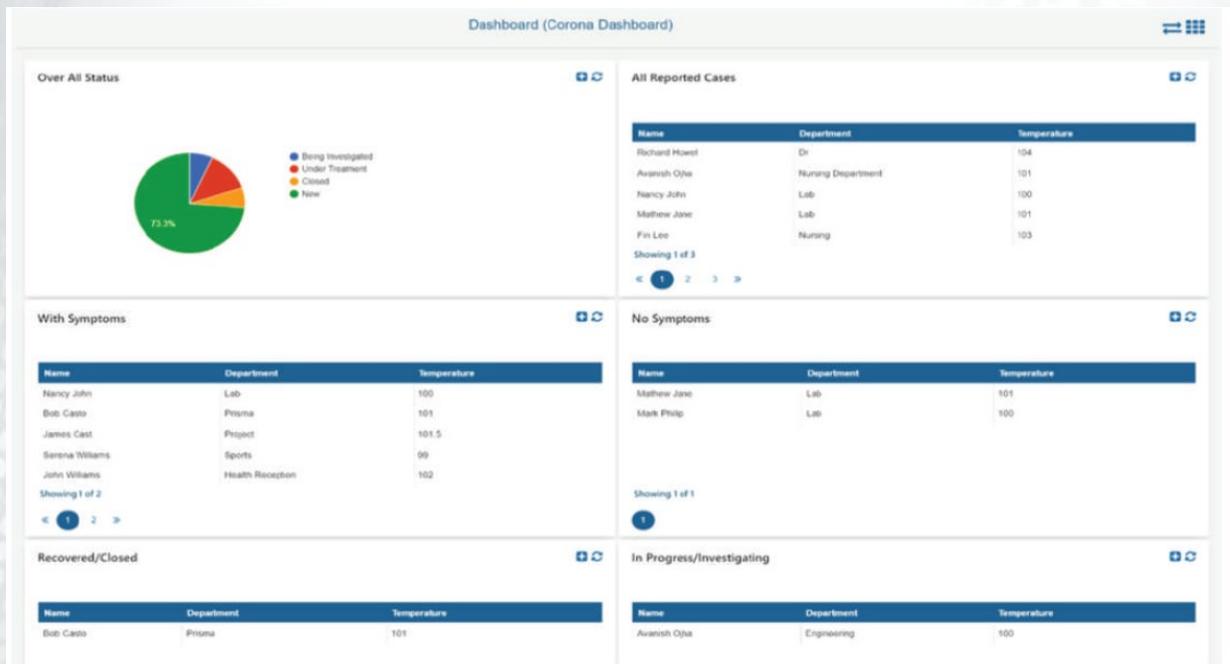

Fever  Cough  Shortness of breath  Upper respiratory symptoms

I don't have any of the above symptoms

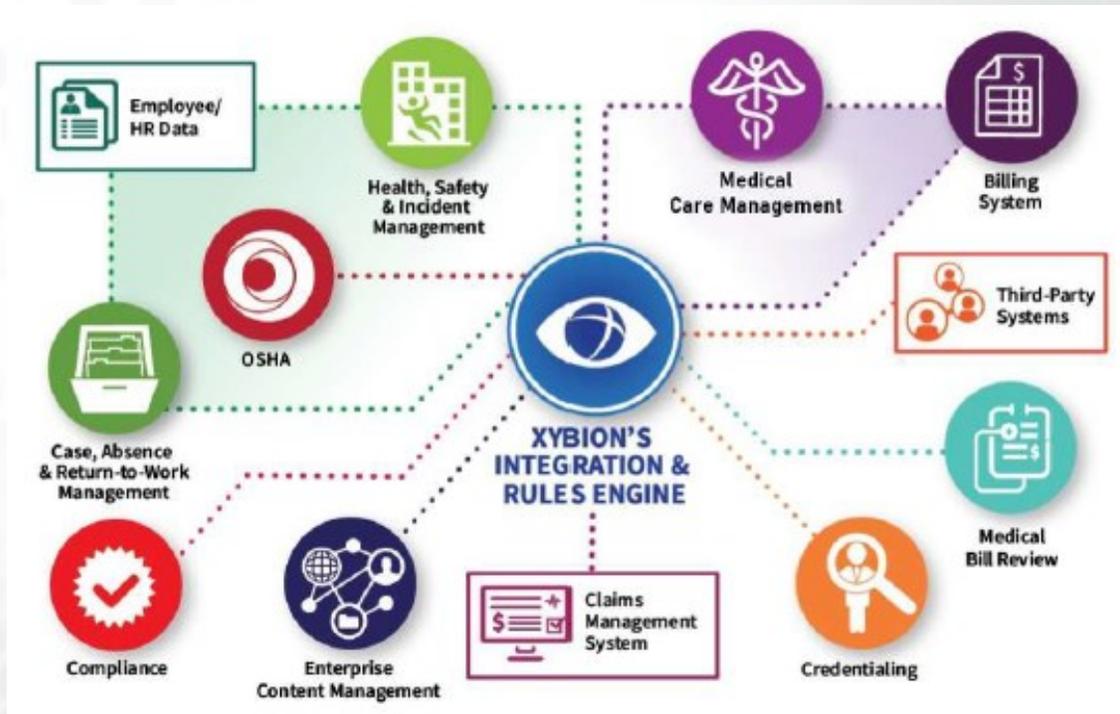

Using the thermometer provided, measure your temperature by applying the probe cover & placing the probe under your tongue. Record the value in the space provided below. When you are done, dispose of the probe cover in the garbage bin.

### Immediate Benefits

- Gather and record all known employee cases of COVID-19 with self-reporting feature
- Executive dashboard for tracking infected employee health status by disease state
- Trace and track all contacts made by the infected person and notify affected individuals and customers
- Create and manage cases through testing, treatments and return-to-work
- Manage workers’ comp. and claims processes

## Total Cloud Solution Covering Your Health and Safety Enterprise Ecosystem Needs

### Ready to implement modules for COVID-19 Exigency Management:

- Employee on-demand self-reporting via their mobile devices
- Central Dispatch and Case Managers Workbench for managing the entire life-cycle from possible exposure through testing, care, recovery and return to work and workers' compensation case and claims management
- Executive Dashboards for oversight on all cases by stage, by locations and by contacts made for each case and for each customer
- Workers' compensation and claims management

### About Xybion:

Xybion is a leading SaaS company dedicated to providing life sciences and health systems companies with innovative software solutions to accelerate the transformation of today's inventions into tomorrow's approved medicines, devices, and diagnostic tests designed to save lives and keep employees safe. Our intelligent cloud platform and software solutions help companies accelerate digital transformation of processes, speed up innovation, optimize operations, reduce compliance risks, and achieve significant cost savings.

Xybion is serving over 160 customers in 29 countries including all the top 20 global biopharmaceutical companies. Xybion's global scale and expertise brings employees around the world to help companies in life sciences, health systems, research institutions, and governments. We help companies digitally transform their regulated business operations. Our unique solutions focus on employee health and safety, integrated preclinical lab management, early-stage drug discovery, digital lab solutions, regulatory compliance, GRC, quality management, predictive compliance, content management, and systems validation.
