Workers' Comp Cloud

Evidence-Based Care, Claims and Compliance Platform

The Workers' Comp Cloud delivers a full suite of integrated applications that provides increased operational efficiencies and lowered costs. No longer will you need to manage islands of data as Workers' Comp Cloud delivers a single source of truth. One cloud platform ensuring data integrity throughout your organization. Our digital solution represents the convergence of people and technology for the workers' comp industry.

List of Available Apps:

- Bill review
- OSHA reporting
- Enterprise content management
- Soft tissue management
- Care and case management
- State reporting
- Health and safety
- Network management
- Evidence-based medical billing
- E-Occupational health practice management

Key Benefits:

- Leverages embedded decision-tree algorithms based on ACOEM's occupational medicine practice guidelines and other evidence-based guidelines.
- Facilitates provision of the right care at the right time to the right patient by utilizing bio-psycho-social factors driven medical practices and risk management.
- Establishes initial medical necessity and substantiates medical treatment efficacy leading to optimized verifiable outcomes.
- Makes reporting and regulatory compliance easier.
- Helps organizations comply with OSHA 29 CFR regulations and supports the OSHA 18001 framework.
- Reduces cycle time and cost of claim processing. Reduces unnecessary claims denials.

Key Features:

- 100% cloud-based and accessible via any device. Offered as a modular or complete solution.
- ACOEM, ODG, ICD-10 Embedded.
- Built-in evidence that the treatment plan recommend for the patient has been done and the outcomes are documented.
- Real-time tracking, monitoring and reporting of outcomes.
- Evidence-based real-time risk projection and management.
- Flexibility between various state and federal Healthcare.
- Integration with other EHR and 3rd-party systems.
- Digital billing and claims processing and integration with payor systems.
- Secure cloud-based stakeholder portal.
- Zero IT costs to implement and maintain.
- Transaction-based, pay-as-you-go pricing model.

Workers' Comp Cloud

One Cloud... One Core Database... Multiple Interconnected Apps

Workers' Comp Cloud is a cloud-based, low-code, rapidly configurable new generation digital platform that integrates process, quality and compliance management with data integrity; all within an integrated enterprise content management system. All data is in a single database, facilitating a single source of truth, securely accessed in the cloud. It is purpose-built to manage the employee care, risk, safety and compliance for employers, insurance companies, and TPAs.

ACOEM, ODG, OSHA, digital ICD-10 billing and digital bill review are all integrated for seamless workflow and process management. This mobile enabled platform allows you to have your own application that can be rapidly configured to your business processes. Have the comfort of knowing that you are working from the same data sets with full data integrity and continuity across your business enterprise. Workers' Comp Cloud is a Platform that enables all internal and external stakeholders to streamline delivery and enhance efficiencies, while improving outcomes. With core functionalities that include OSHA, soft tissue injury (STI), medical bill review, asset, and enterprise content management; employers, insurance carriers, claims and care management professionals can rapidly implement complete or complementary solutions configured specifically to meet their organization's distinct needs.

With embedded federal regulatory recognized evidence-based guidelines, what better way is there to add consistencies, evaluate program performance and drastically improve compliance?

About Xybion

Xybion is a leading SaaS company dedicated to providing life sciences and health systems companies with innovative software solutions to accelerate the transformation of today's inventions into tomorrow's approved medicines, devices, and diagnostic tests designed to save lives and keep employees safe. Our intelligent cloud platform and software solutions help companies accelerate digital transformation of processes, speed up innovation, optimize operations, reduce compliance risks, and achieve significant cost savings.

Xybion is serving over 160 customers in 29 countries including all the top 20 global biopharmaceutical companies. Xybion's global scale and expertise brings employees around the world to help companies in life sciences, health systems, research institutions, and governments. We help companies digitally transform their regulated business operations. Our unique solutions focus on employee health and safety, integrated preclinical lab management, early-stage drug discovery, digital lab solutions, regulatory compliance, GRC, quality management, predictive compliance, content management, and systems validation.
