

Pristima XD Selected List of Analyzers

Pristima XD Core is a fully integrated, end-to-end enterprise solution for tracking and managing veterinary facilities and research subjects throughout the preclinical research process.

Xybion software drives data collection workflows while ensuring quality, efficiency, and compliance in global pharma companies and CROs.

Need Flexible Deployment?

Xybion offers on-premise or hosted solutions.

Are You SEND Ready?

Pristima XD Core's Savante module provides the most automated solution to produce SEND datasets.
