- Keeps all data (regardless of type) in a single secure location

***Encompasses:***

- Corrective and Preventive Actions (CAPA)
- Auditing
- Online Training
- Capturing of Near Misses

## **Workers' Comp Cloud**

### **Safety & Compliance and OSHA Reporting e-Platform**

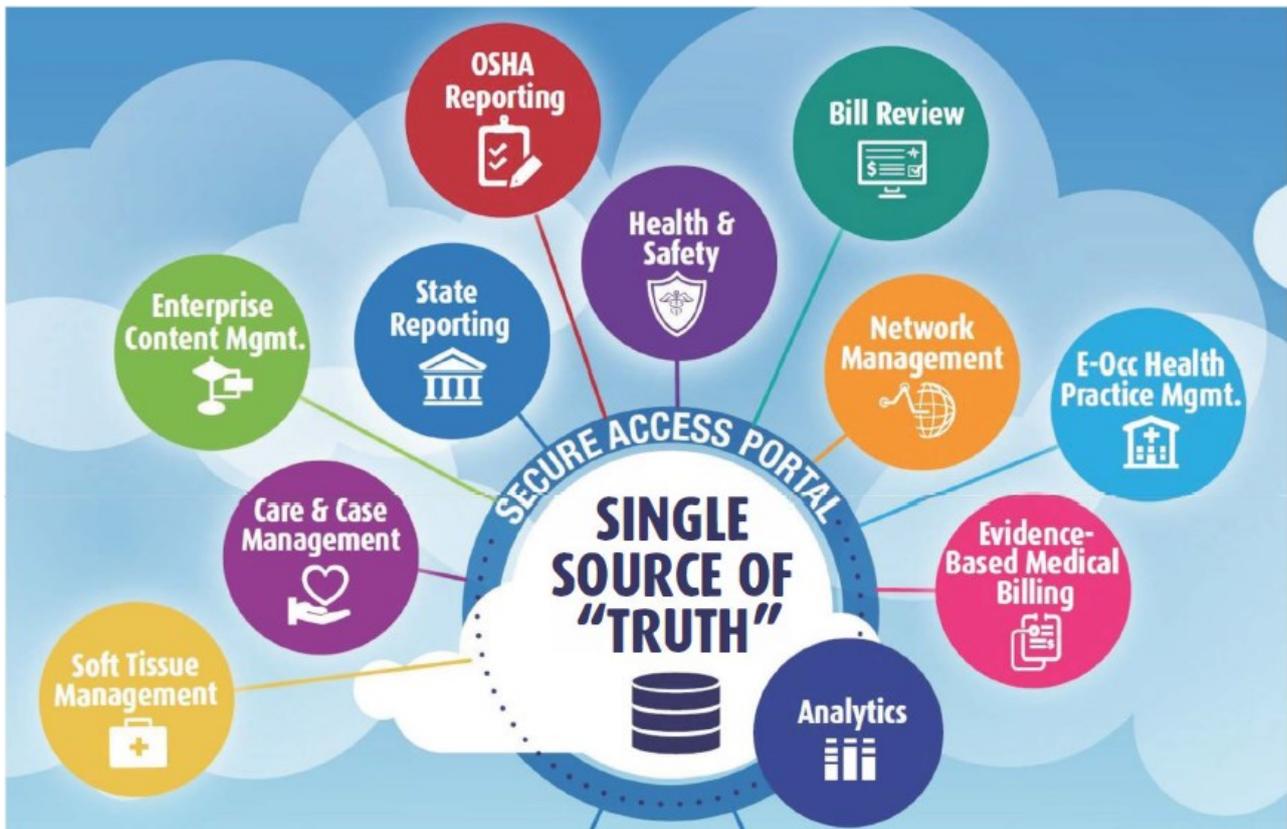

Xybion, a leader in creating technology to support highly regulated environments has created the Workers' Comp Cloud, delivering a full suite of integrated applications that provides increased operational efficiencies and lowered costs.

Xybion's Workers' Comp Cloud helps organizations to comply with OSHA 29CFR regulations and current OSHA eReporting requirements (81 FR 29624) while supporting the OSHAS 18001 framework. It also provides enterprise-wide visibility into workplace incidents, remedial actions and procedure metrics.

While our Safety & Compliance software has assisted firms in enhancing incident reporting and OSHA compliance for many years, Xybion has been a technological mainstay for over 40 years to firms governed by the FDA and other regulatory authorities. Our success in providing comprehensive high-tech solutions is evidenced by our long-term relationships with the globe's top twenty pharmaceutical companies. This is in addition to other major firms operating in the laboratory, discovery and pre-clinical settings.

### **Key Features**

- 100% cloud-based & accessible via any device.
- Offered as a modular or complete solution.
- ACOEM, ODG, ICD-10 Embedded.

- Digital billing and claims processing and integration with Payor systems.
- Secure cloud-based stakeholder portal.
- Zero IT costs to implement and maintain.
- Transaction-based, pay-as-you-go pricing model.

## One Cloud ... One Core Database ... Multiple Interconnected Apps

Workers' Comp Cloud within Evidence XD, is a cloud-based, low-code, rapidly configurable new generation digital e-Platform that integrates process, quality and compliance management with data integrity; all within an integrated Content Management system. All of these data are in a single database, facilitating a "single source of truth," securely accessed in the cloud.

It is purpose-built to manage the employee care, risk, safety and compliance for Employers, Insurance Companies and TPAs. ACOEM, ODG, OSHA, Digital ICD-10 billing and Digital Bill Review are all integrated for seamless workflow and process management. This mobile enabled platform allows you to have your own application, rapidly configure it to your business processes and have the comfort of knowing that you are working from the same data used by the previous work step and the work step that you will hand over to next.
