

Unsurpassed Animal Care and Management

The Pristima Veterinary Management (VM) provides robust functionality for animal care and use committees in managing veterinary health, orders, billing, and clinical records for long term studies.

Pristima VM can be run as a stand-alone application or as part of a total Pristima XD preclinical R&D solution. Our animal care software provides uninterrupted data management from the entrance of animals into a research facility to the submission of regulatory reports for safety testing.

Key Benefits:

- Animal Care
- Global Regulatory Compliance
- Automated Task Management
- Animal Room Management
- Veterinary and Vivarium Management
- IACUC
- Resource Management
- Automated Logistics of Animal Requests
- Colony Management
- Veterinary and Experiment Records

IACUC, Veterinary, and Facility Management

With Pristima VM, you can converge operations and compliance on one platform, resulting in a lower cost of ownership, reduced IT complexity, and a more robust solution for today's laboratory.

Pristima VM Goes Beyond Traditional LIMS/ELN Systems

Xybion enables organizations to drive operational efficiency while also maintaining oversight, proper governance, and overall compliance in regulated laboratories operating under GLP, GMP, and GCP.

Complete Animal Lab Management
